More Light Needed.

It has been suggested by a number of our citizens that the CLIMAX petition the City Council for a gas light on Fifth street, to be located about half way between North and Main streets.

The distance from North to Main is about two hundred yards, with only one lamp at the corner of North and Fifth, and that street is so obscure on dark nights that the one lamp reminds us of a lightning bug in a ton-acre pasture, with the exception the gas lamp does not have the characteristic intervals between flashes which the lightning bug.
